

# FIRST CHINA-ITALY MEDICAL CULTURE WEEK

## Changjiang Weekly 21 Sep 2018

On Sept. 16, the first China-Italy Medical Culture Week opened in Wuhan. More than 20 top medical experts from 10 university hospitals in Italy gathered with over 200 medical workers from the Xinjiang Uygur Autonomous Region, Hainan, Henan, Hunan and Hubei provinces for academic exchanges.

China-Italy medical culture exchanges began in 1997. Over the past 20 years, medical workers from Renmin Hospital and Italian medical institutions have visited each other frequently.

During this cultural week, Renmin Hospital and Humanits University will sign an agreement to further deepen cooperation. Many cultural exchange activities will also be organized, display traditional Chinese culture to the Italian experts, such as Peking Opera performance, folk music and Chinese calligraphy.

意籍专家观摩医院心

Nel pomeriggio del 16 settembre è stata appena inaugurata la settimana della cultura medica cino-italiana, con una operazione di trapianto di cuore presso l'Ospedale del Popolo.

Il professor Marco Diena, un esperto italiano, è stato invitato a visitare l'operazione di trapianto e ha elogiato l'abilità del team di trapianto di cuore guidato dal chirurgo e dal chirurgo cardiologico Wang Zhiwei. Il professor Marco Diena è stato il più giovane chirurgo capo in Italia e finora ha eseguito un intervento chirurgico su oltre 12.000 pazienti. È stato riferito che questa è la ventitreesima operazione di trapianto di cuore effettuata dal People's Hospital nel 2018.

受唐其柱院长的邀请，Dr. Diena Marco 于2018年9月16-18日出席了由武汉大学人民医院承办的“中意医学文化周”，并做了主题为“心血管外科新进展”的学术报告。
