**MVSIC 2020** is compliant with the  
**MedTech Europe Code of Ethical Business Practice**

Considering the restrictions related to Covid-19, affecting a number of institutions and countries, we decided to program the MVSIC 2020 edition differently from our original idea. This year's edition will be reduced and only a small number of experts will meet in Milan, according to social distancing rules, while the whole congress will be spread to a worldwide audience of attendees through an on-line streaming and interactive platform (HYBRID EDITION).

As usual, live cases will be the core of the event along with plenty of discussions.
